

Homework Policy for School Aged
Homework Time

Children in grades 1-5 will be provided a quiet time for homework each afternoon. You are asked to help us by filling out the form below. This helps us to know whether or not you expect your child to do homework while at the center.

Please be sure your child is clear on your expectations for doing homework while at the center. It can be difficult for child care teachers to determine whether or not your child has homework; however, if your child needs prompting on getting homework done we will work with you. You are encouraged to communicate any special needs to your child's afternoon teacher.

While teachers will help children as much as possible they are not always able to sit with children who need one on one with homework.
